

CALL FOR NOMINATIONS

CFAA Fire Alarm Technician “Above and Beyond” Award

Mandatory Requirements

- Registered CFAA Fire Alarm Technician in good standing
- Exemplary job performance as a Fire Alarm Technician
- Adheres to the CFAA Code of Ethics as follows:
 1. Be dedicated to safety of the public from fire, in all aspects of their fire alarm work.
 2. Adhere to all applicable fire alarm codes, standards, and by-laws in all areas of fire protection including design, manufacture, application, installation, verification, maintenance servicing and promotion of fire alarm systems
 3. Only perform fire alarm services and/or render opinions for which they have qualification and experience
 4. Be honest and truthful in all dealings
 5. Behave in a manner that upholds the principles and integrity of the Canadian Fire Alarm Association
 6. Support the education of industry participants concerning advances in Life Safety and Fire Alarm
 7. Promote the Goals and Objectives of the Canadian Fire Alarm Association, and both refrain from and discourage others from the misuse of its name and logo
 8. Participate in lifelong learning regarding the practice of their profession

Nominations will accepted from CFAA Members and Registered Fire Alarm Technicians. Self-nominations are permitted.

Award Details

- One award per Chapter, for a total of nine (9) awards max. per year to be presented by the CFAA Chapter Board
- Award value is \$1500 each
- The CFAA National Technicians Committee will review all nominations and select the winners
- Complete the nomination form and submit to Jackie Jones at techawards@cfaa.ca
no later than Tuesday, September 5, 2023

Evaluation Process will consider the following criteria:

- Performed actions that represent going the extra mile and above and beyond
- An example of where the technician applied Codes and Standards to provide a solution that solved a compliance issue(s)?
- An example of where the technician has influenced Codes and Standards requirements
- Volunteers time and is involved in Industry Associations and Committees
- Provides technical support and mentorship for CFAA Trainees and/or other Technicians
- Has completed additional training courses in addition to their CFAA Fire Alarm Technician Registration qualifications
- On a career development path to becoming a CFAA and Industry leader
